

Top Edge of Letterplate

1. Print this A4 page at actual size, double-checking that the 264mm dimension above is correct.
2. Place this guide in the desired location on your door and mark cutout and mounting holes onto door.
3. Cut out the mail opening and drill two 9mm holes (264mm apart) for the mounting studs.
4. Attach the threaded rod to the letterplate. Cut its length to suit the nut.
5. Fit letterplate to the door and secure with washers and nuts provided.
